بورڈ آف ڈائریکٹرز نے کمپنی کے کاروبار کی بنیادی نوعیت کو بروکریج ہاؤس سے ریئل اسٹیٹ کمپنی میں تبدیل کرنے کا فیصلہ کیا تھا۔ کمپنی پاکستان اسٹاک ایکسچینج کمپنی لمیٹڈ کے ٹریڈنگ رائٹ انٹیکلیمنٹ سٹریکٹ (TREC) سے دستبردار ہو چکی ہے۔ دستبرداری کی ایک درخواست PSX کو جمع کرائی گئی تھی لیکن کمپنی دستبرداری کے عمل کو مکمل کرنے کے لئے PSX کو درکار چند تقاضے پورے کرنے کے عمل میں ہے۔

کمپنی کی کارکردگی

فی الوقت، کمپنی کے کاروباری امور غیر فعال ہیں اور کاروباری لائن کو بروکریج ہاؤس سے ریئل اسٹیٹ کمپنی میں تبدیل کرنے کے لئے تبدیلی کے عمل میں ہے۔ کمپنی مالیاتی اداروں کے ساتھ سمجھوتہ طے پا جانے کے بعد نظر ثانی شدہ کاروباری منصوبے پر عمل درآمد کا ارادہ رکھتی ہے۔

کمپنی نے فعال آپریشنز سے گزشتہ برس میں 17.19 ملین روپے خسارے کی نسبت مالیاتی سال 2024ء کے دوران 18.82 ملین روپے نفع علاوہ ٹیکس رپورٹ کیا۔ مزید برآں، زیر جائزہ سال کے دوران غیر فعال آپریشنز سے خسارہ 1.02 ملین روپے رہا جب کہ گزشتہ برس میں یہی خسارہ 0.89 ملین روپے تھا۔ علاوہ ازیں، سرمایہ کاری کے تعین نو پر غیر حاصل شدہ آمدنی 17.04 ملین روپے رہی جب کہ اس کے برعکس گزشتہ برس کی اسی مدت میں 17.07 ملین روپے کا خسارہ ریکارڈ ہوا تھا۔

کمپنی کی کاروبار جاری رکھنے کی صلاحیت

کمپنی کے بورڈ آف ڈائریکٹرز نے سال 2019ء کے دوران مسلسل خسارے اور مارکیٹ کی ابتر صور حال کے باعث پاکستان اسٹاک ایکسچینج کے ٹریڈنگ رائٹ اینٹیکلیمنٹ سٹریکٹ (TREC) سے دستبردار ہونے، اپنے بروکریج آپریشنز کو بند کرنے اور کمپنی کے بنیادی کاروباری مقاصد کو اسٹاک بروکر سے ریئل اسٹیٹ کمپنی میں تبدیل کرنے کا فیصلہ کیا۔

مذکورہ سال کے دوران کمپنی نے 17.04 ملین روپے کی سرمایہ کاری پر غیر وصول آمدنی (2023: 17.07 ملین روپے خسارہ) حاصل کرنے پر 18.83 ملین روپے (2023: 17.19 ملین روپے نقصان) منافع بمعہ ٹیکس حاصل کیا۔ مزید برآں، کمپنی کا مجموعی خسارہ 30 جون، 2024ء کو 1,060.79 ملین روپے رہا (2023: 1,078.59 ملین روپے) اور رپورٹنگ کی تاریخ تک کمپنی کے حالیہ واجبات اپنے حالیہ اثاثہ جات سے 496.13 ملین روپے تک بڑھ گئے۔ (2023: 508.04 ملین روپے)۔

بورڈ آف ڈائریکٹرز اور کمپنی کی انتظامیہ نے کئی موثر اسٹریٹجک فیصلے لئے اور اس پر کوشش کی۔ تاکہ کاروبار کو مزید منافع بخش بنایا جاسکے۔ اس بابت کمپنی کے بورڈ آف ڈائریکٹرز نے اپنے اجلاس منعقدہ 28 جون 2019ء کو مسلسل خسارے اور مارکیٹ کے ابتر حالات کے باعث پاکستان اسٹاک ایکسچینج کے ٹریڈنگ رائٹ اثاثہ ٹھیکٹ (TREC) سے دستبردار ہونے، بروکرینج آپریشنز بند کرنے اور کمپنی کی بنیادی کاروباری سرگرمی کو اسٹاک بروکر سے ریٹیل اسٹیٹ کمپنی میں تبدیل کرنے کا فیصلہ کیا۔

مزید یہ کہ، کمپنی کی انتظامیہ اپنے واجب الادا قرضوں پر مسلسل مذاکرات کر رہی ہے اور پر امید ہے کہ انویسٹمنٹ پر اپرٹی کے عوض UBL کا واجب الادا قرضہ ادا کر دیا جائے گا۔ کمپنی کی انتظامیہ امید رکھتی ہے کہ بنیادی سرگرمی میں تبدیلی اور ریٹیل اسٹیٹ کے شعبہ میں گروپ کا مجموعی تجربہ کمپنی کی مالیاتی کارکردگی پر مثبت اثرات مرتب کرے گا۔

مذکورہ بالا حالات کے پیش نظر، اگرچہ واضح بے یقینی قائم ہے جو کمپنی کی کاروبار جاری رکھنے کی صلاحیت پر نمایاں شکوک و شبہات مرتب کرے گی، لیکن بورڈ آف ڈائریکٹرز اور کمپنی کی انتظامیہ مطمئن ہے اور قومی یقین رکھتی ہے کہ یہ تمام حالات عارضی ہیں اور مستقبل قریب میں حالات بدل جائیں گے اور یہ کہ کاروبار جاری رکھنے کا مفروضہ معقول ہے لہذا یہ مالیاتی اسٹیٹمنٹس اس مفروضے پر تیار کی گئی ہیں کہ کمپنی کاروبار جاری رکھنے کی صلاحیت رکھتی ہے۔

مستقبل کا منظر نامہ

کمپنی کی بنیادی کاروباری نوعیت کو بروکرینج کمپنی سے ریٹیل اسٹیٹ کمپنی میں تبدیلی کرنے کے لئے کمپنی کے میمورنڈم آف ایسوسی ایشن کی آجیکٹ کلاز III میں ضروری تبدیلی کر دی گئی ہے جو متعلقہ اتھارٹیز سے منظوری کے عمل میں ہے۔

جونہی دستبرداری کا عمل مکمل اور کمپنی کے میمورنڈم آف ایسوسی ایشن کی آجیکٹ کلاز III میں تبدیلی کی منظوری ہو جائے گی تو کمپنی بطور ریٹیل اسٹیٹ کمپنی اپنی تجارتی سرگرمیاں شروع کر دے گی۔

داخلی نظم و ضبط

ڈائریکٹرز اور انتظامیہ کمپنی کے داخلی نظم و ضبط کے سسٹم کے نفاذ اور سالانہ موثر نظر ثانی کے لئے ذمہ دار ہیں تاکہ وہ اپنے سٹیک ہولڈرز کو ان کی سرمایہ دار پر معقول منافع دے سکیں جو خطرات کے ذمہ دار تعین اور انتظام سے منسلک ہوتا ہے۔ اس میں مالیاتی، آپریشنل اور تعمیلی کنٹرولز اور رسک مینجمنٹ طریقہ ہائے کاروبار اور ان پر متاثر عمل درآمد نظر ثانی شامل ہے۔ ڈائریکٹرز نے 2024ء کو اختتام پذیر سال کے لئے اپنا سالانہ جائزہ اور تخمینہ مکمل کر لیا ہے۔

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report

Head Office: 25-G, Gulberg II, Lahore - 54660 Pakistan.

because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion, except for the matters stated in Basis for Qualified Opinion above:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the statement of financial position, the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity, and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- no Zakat was deductible at source under the Zakat and Usher ordinance, 1980 (XVIII 1980).

Other Matter

The financial statements of the Company for the year ended June 30, 2023, were audited by another auditor, who expressed an unmodified opinion on those financial statements on October 07, 2023.

The engagement partner on the audit resulting in this independent auditor's report is **Malik Haroon Ahmad, FCA**.

3.3 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards as applicable in Pakistan, requires management to make judgments, estimates and assumptions, that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates, associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There was no significant adjustment required for the estimates and judgments as compared to previous year. The areas where various assumptions and estimates are significant to Company's financial statements or where judgments were exercised in application of accounting policies are;

4 INITIAL APPLICATION OF NEW STANDARDS, INTERPRETATIONS OR AMENDMENTS TO EXISTING STANDARDS

4.1 Standards, interpretations and amendments to accounting standards that are effective in the current period

There were certain amendments that became applicable for the Company during the year but are not considered to be relevant or did not have any significant effect on the Company's operations and have, therefore, not been disclosed in these financial statements except that during the year certain amendments to IAS 1 'Presentation of Financial Statements' have become applicable to the Company which require entities to disclose their material accounting policy information rather than their significant accounting policies. These amendments to IAS have been introduced to help entities improve accounting policy disclosures so that they provide more useful information to investors and other primary users of the financial statements. These amendments have been incorporated in these financial statements with the primary impact that the material accounting policy information has been disclosed rather than the significant accounting policies.

During the year, the Institute of Chartered Accountants of Pakistan (ICAP) has withdrawn Technical Release 27 'IAS 12, Income Taxes (Revised 2012)' and issued the 'IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes' (the Guidance). 4.2 Standards, amendments to approved accounting standards that are not yet effective

There are certain new standards and amendments that will be applicable to the Company for its annual periods beginning on or after July 1, 2024. The new standards include IFRS 18 Presentation and Disclosure in Financial Statements and IFRS 19 Subsidiaries without Public Accountability: Disclosures both with applicability date of January 1, 2027 as per IASB. These standards will become part of the Company's financial reporting framework upon adoption by the SECP. The overall amendments include those made to IFRS 7 and IFRS 9 which clarify the date of recognition and derecognition of a financial asset or financial liability which are applicable effective January 1, 2026. The Company's management at present is in the process of assessing the full impacts of these new standards and the amendments to IFRS 7 and IFRS 9 and is expecting to complete the assessment in due course.

5 MATERIAL ACCOUNTING POLICIES

The accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented.

5.1 Property plant and equipment

These are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged to profit or loss applying the straight-line method whereby the cost is written-off over its estimated useful life at the rates specified in note 6.1 to the financial statements.

Depreciation on additions is charged on a pro-rata basis from the date on which the asset is put to use, while for disposals depreciation is charged up to the date of disposal of the asset. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the assets revised carrying amount over its estimated useful life.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Maintenance and repairs are charged to income as and when incurred. Renewals and improvements are capitalized when it is probable that respective future economic benefits will flow to the Company and the cost of the item can be measured reliably, and the assets so replaced, if any, are retired.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

Residual value and the useful life of an asset are reviewed at each financial year end and adjusted if impact on depreciation is significant. The Company's estimates of residual value of property and equipment at June 30, 2018 did not require any adjustment.

5.2 Impairment

Financial Assets

The Company recognizes loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortized cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

MHA & CO

FIRST CAPITAL EQUITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information. The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the Gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expect no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The adoption of the expected loss approach has not resulted in any material change in impairment provision for any financial asset.

The Company recognizes in profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date.

Non-Financial Assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets and inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

5.3 Investment property

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are initially recognized at cost, being the fair value of the consideration given, subsequent to initial recognition these are stated at fair value. The fair value is determined annually by an independent approved valuer. The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of valuation between knowledgeable and willing buyer and seller in an arm's length transaction.

Any gain or loss arising from a change in fair value is recognized in the statement of profit or loss. Rental income from investment property is charged to profit and loss on accrual basis.

When an item of property, plant and equipment is transferred to investment property following a change in its use, any differences arising at the date of transfer between the carrying amount of the item immediately prior to transfer and its fair value is recognized in surplus on revaluation of property, plant and equipment, if it is a gain. Upon disposal of the item the related surplus on revaluation of property, plant and equipment is transferred to retained earnings. Any loss arising in this manner is recognized immediately in the statement of profit or loss.

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment and its fair value at the date of reclassification becomes its carrying value for accounting purposes for subsequent recording.

5.4 Financial instruments

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. The Company de-recognizes a financial asset or a portion of financial asset when, and only when, the enterprise loses control of the contractual rights that comprise the financial asset or portion of financial asset. A financial liability or part of financial liability is de-recognized from the statement of financial position, when and only when, it is extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on the recognition or de-recognition of the financial assets and liabilities is included in the statement of profit or loss currently.

Significant financial assets include long term deposits, short term investments, trade debts, loans and advances, other receivables and cash and bank balances.

Significant financial liabilities are classified according to the substance of the contractual agreements entered into. Significant financial liabilities are liabilities against assets subject to finance lease, mark-up accrued, long term / short term borrowings and trade and other payables.

5.4.1 Initial measurement of financial asset

The Company classifies its financial assets in to following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- at amortized cost

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

5.4.2 Subsequent measurement of financial assets

Debt Investments at FVOCI: These assets are subsequently measured at fair value. Interest / mark-up income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss. Other net gains and losses are recognized in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity Investments at FVOCI: These assets are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.

MHA & CO

FIRST CAPITAL EQUITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest / mark-up or dividend income, are recognized in profit or loss.

Financial assets measured at amortized cost: These assets are subsequently measured at amortized cost using the effective interest rate method. The amortized cost is reduced by impairment losses. Interest / mark-up income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.

5.4.3 Non-derivative financial assets

All non-derivative financial assets are initially recognized on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets and includes trade debts, advances, other receivables and cash and cash equivalent.

The Company derecognizes the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

5.4.4 Trade debts, loans, advances and other receivables

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

5.4.5 Financial liabilities

Financial liabilities are initially recognized on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial liabilities include mark-up bearing borrowings and trade and other payables. The Company derecognizes the financial liabilities when contractual obligations are discharged or cancelled or expire. Financial liability other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortized cost using effective interest rate method which is the fair value of consideration to be paid to settle the liability.

5.4.6 Mark-up bearing borrowings and borrowing costs

Mark-up bearing borrowings are recognized initially at fair value, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortized cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognized in the statement of profit or loss over the period of the borrowing using the effective interest method.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the relevant asset.

5.4.7 Accrued and other liabilities

Accrued and other liabilities are recognized initially at fair value plus directly attributable costs, if any, and subsequently measured at amortized costs, which is the fair value of consideration to be paid to settle the liability.

5.4.8 Settlement date accounting

All "regular way" purchases and sales of financial assets are recognized on the settlement date, i.e. the date on which the asset is delivered to or by the Company. Regular way purchases or sales of financial assets are those contracts which requires delivery of assets within the time frame generally established by regulation or convention in the market.

5.5 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. However, provisions are reviewed at each statement of financial position date and adjusted to reflect current best estimate.

The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years.

Deferred

Deferred tax is accounted for using the statement of financial position liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the statement of financial position date. 5.11 Related party transactions

All transactions involving related parties arising in the normal course of business are conducted at arm's length at normal commercial rates on the same terms and conditions as third party transactions using valuation modes as admissible, except in extremely rare circumstances where, subject to approval of Board of Directors, it is in the interest of the Company to do so.

5.12 Fair value

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms. The carrying values of all financial assets and liabilities reflected in these financial statements approximate their fair values. Fair value is determined on the basis of objective evidence at each reporting date.

Specific valuation techniques used to value financial instruments include:

Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

Unsold properties are carried at lower of cost and net realizable value. The cost of stock-in-trade includes the cost of freehold land, leasehold land and other related expenditure. Net realizable value represents the estimated selling price of a property in the ordinary course of business less estimated cost of completion and cost necessary to make the sale.

If expected net realizable value is lower than the carrying amount, a write down is recognized for the amount by which the carrying amount exceeds its net realizable value.

5.15 Operating Segments

As per IFRS 8, "Operating Segments", operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision maker. The Chief Executive Officer (CEO) of the Company has been identified as the chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments. Investment properties

There are no level 1 and level 3 assets or transfers between levels 1, 2 and 3 during 2024 or 2023.

Valuation techniques used to derive level 2 fair values:

Level 2 fair value of investment properties has been derived using the sales comparison approach. Sale prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as location, size, nature and condition of the property. The most significant input into this valuation approach is price per square foot.

Concentration of credit risk

Concentration of credit risk exists when the changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Company's total credit exposure. The Company's portfolio of financial instruments is mainly concentrated in trade debts and receivable against sale of investment property. Receivable from sale of investment property is secured against property sold and trade debts against which sufficient collateral is not available are written off.

29.2 Liquidity risk

Liquidity risk is the risk that an enterprise will encounter difficulties in raising funds to meet commitments associated with financial instruments. During the year Company came under severe liquidity pressure as mentioned in note 2.

The following are the contractual maturities of financial liabilities as on June 30, 2024.

29.3 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices, will effect the Company's income or the value of its holdings of financial instruments.

29.3.1 Currency risk

Foreign currency risk arises mainly where payable/receivable exist due to transactions with foreign clients. There were no dealings with foreign clients during the year, except as disclosed in Note 20.1.11. Since the company's legal counsel is confident that no cash outflow will occur, as a result it is assumed that there is no exposure to foreign currency risk.

29.3.2 Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company has no exposure to interest rate risk during the year (2023:Nil)

29.3.3 Price risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Company is exposed to equity price risk since it has investments in quoted equity securities amounting to Rs. 67.614 Million (2023 : Rs. 50.58 Million) at the year end.

The Company's strategy is to hold its strategic equity investments for long period of time that are classified as long term investment. Thus, Company's management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee remain favorable. Company strives to maintain above average levels of shareholders' capital to provide a margin of safety against short term equity price volatility. Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as at year end. Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

Valuation techniques used to measure fair values

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year.

29.4 Capital risk management

The primary objective of the Company's capital management is to maintain healthy capital ratios, strong credit rating and optimal capital structure in order to ensure ample availability of finance for its existing operations, for maximizing shareholder's value, for tapping potential investment opportunities and to reduce cost of capital.

The Company manages its capital structure and makes adjustment to it, in light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

The Company finances its operations through equity, borrowing and management of its working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk.

There were no changes in the Company's approach to capital management during the year and the company is subject to externally imposed minimum equity requirement of the Securities Brokers (Licensing and Operations) Regulations, 2016 and is required to maintain Rs. 35 million net equity. The Company's equity is above the minimum required threshold limit. Capital comprises of share capital net of accumulated losses.
