DIRECTORS' REPORT

The Board of Directors of First Capital Investments Limited ("FCIL" or "Management Company" or "the Company") is pleased to present the annual report of First Capital Mutual Fund ("the Fund" or "FCMF" or "the Scheme") together with the annual audited financial statements of the Fund for the financial year ended 30 June 2015.

EQUITY MARKET REVIEW

During the Financial Year 15 (FY15), KSE-100 index posted a return of 16.01% against an average return of 46.5% in last two years and closed the year at the level of 34,389.9 points.

During the period under review, KSE-100 index hit the highest level of 34,826.5 on the back of 100bps cut in the discount rate in the month of January 2015. On the flipside, the index exhibited the lowest level of 27,774.4 due to chaos at the political front in the month of August 2014. The daily average trading volume remained at the 6 years high of 215.9 million shares.

Political tensions mainly disrupted the market in the beginning of FY15. The sharp decline in the international crude oil prices and loose monetary policy dragged down the performance of index heavy weights Oil & Gas and Banking sector respectively. Resultantly, KSE-100 index was not able to perform in line with its previous two years history. Moreover, liquidity concerns in the months of February and March overwhelmed the macroeconomic improvements throughout the year, including decades low inflation, 42-year low interest rates, decades high forex reserves and ratings outlooks upgrades by Moody's and S&P. The signing of projects under China-Pakistan Economic Corridor (CPEC) led to some recovery towards the end of the year. The year was also marked by a large amount of public offerings, both initial and secondary, of around PKR 202 billion, which is almost double of the offerings in FY14.

The sentiment on international crude oil prices is still bearish that jeopardize the expectation of recovery in the value of stocks of oil exploration companies. However, the valuation of certain stocks of construction, electricity and chemical sectors are fundamentally strong. The market is expected to extend the gains on the back of key developments such as Pakistan's bonds rating upgrade by Moody's to B3, MSCIT's decision to include Pakistan for emergent market up gradation review and soft inflation outlook going forward.

FUND PERFORMANCE

During the period under review, the Fund has reported total comprehensive income of Rs.40.189 million. The dividend income is Rs.17.281 million, capital gain on sale of Investments is Rs.35.944 million. The Fund has also reported the unrealized appreciation on re-measurements of investments at fair value through profit or loss of Rs.4.185 million. The total expenses of the fund for the period under review are Rs.15.327 million. The fund was converted into an open end category on 30 July 2013 from a closed end structure; therefore comparative financial figures for eleven months period from 30 July 2013 to 30 June 2014 have been presented in the financials under review.

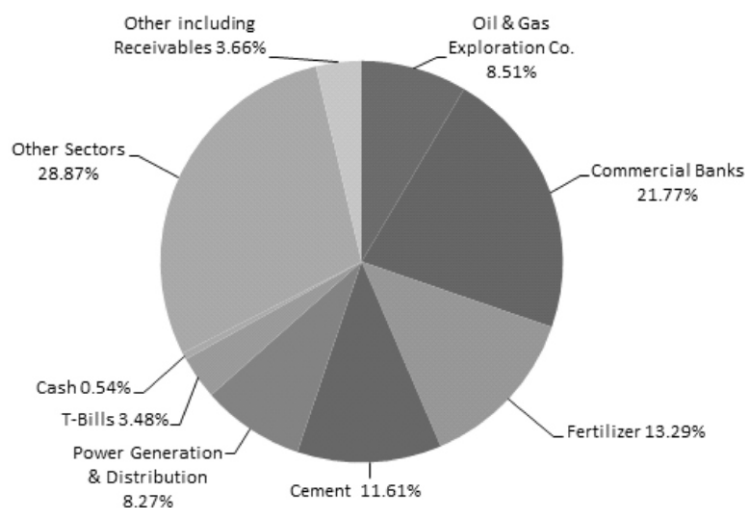

In terms of Net Asset Value (NAV), the NAV per unit of FCMF has increased from Rs.10.9693 to Rs.11.9697 while declaring an interim dividend of Rs.0.71 per unit. The Fund has posted a return of 15.82%, as compared to its Benchmark's (KSE-100 index) return of 16.01%, for the same period. Thus, the Fund has slightly underperformed its Benchmark by 0.19%. The Fund marginally underperformed its benchmark mainly on the back of overweight stance in certain stocks of commercial banks and non-life insurance sector. Going forward, the Fund intends to focus on sectors exhibiting positive corporate earnings growth and cheap valuations.

Fresh issuance of units was allowed during the FY15 however, new issue of units was minimal due to substantial time was taken in taking various regulatory approvals.

During the period under review The Pakistan Credit Rating Agency (PACRA) has assigned 2 stars 1 Year performance ranking to the Fund based on performance review for the period ended June 30, 2015.

The Fund size of FCMF at the end of the period stood at Rs.264.232million as compared to Rs.312.426million as at June 30, 2014. The management company intends to start a marketing campaign both on electronic and print media to bring fresh investment in the fund and to raise the size of funds under management.

The asset allocation of FCMF as on June 30, 2015 is as follows:

The management Company is continuously striving for the improvement in performance of the fund. However, the objective is to focus on outperforming the market and consistent returns in the long run but does not conceptualize upon aggressive high risk strategies to give the best return in the short run.

INCOME DISTRIBUTION

During the period under review, the Board of Directors of the Management Company has approved interim cash distribution of 7.1% of par value. The Board further approved the 9.1% final distribution, translating into total distribution of 16.2% of par value for the period under review.

TAXATION

As the above distribution is more than 90% of the income earned during the year, excluding realized and unrealized capital gains on investments, the Fund is not subject to tax under Clause 99 of the Part I of the Second Schedule of the Income Tax Ordinance, 2001.

WORKERS' WELFARE FUND

The Scheme has maintained provisions against Workers' Welfare Fund's liability to the tune of PKR 8,204,866, if the same were not made the NAV per unit/return of the Scheme would be higher by Rs.0.3717/3.60%. For details investors are advised to read Note 12 of the annual Financial Statements of the Scheme for FY15.

FCMF Performance vs. KSE-100 Index

Summary of Key Investment Decisions during the Year

During the period under review the fund remained invested 92% in equities and 3% in T-bills. However during the period, the fund adjusted its exposure in equities with focus on diversification in different sectors, mainly the fund reduced the stake in Oil sector to 17% in FY15 as compare to 21% in corresponding period of last year on the back of decline in Oil prices internationally.

Resultantly as on June 30, 2015, the handsome growth in the NAV and efficient diversification across sectors implies that the FCMF has aligned with benchmark.

REVIEW REPORT TO THE UNIT HOLDERS ON THE STATEMENT OF COMPLIANCE WITH BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance (the 'Code') prepared by the Board of Directors of First Capital Investments Limited, the Management Company of **FIRST CAPITAL MUTUAL FUND** to comply with the Listing Regulation No 35 (Chapter XI) of the Lahore Stock Exchange where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Management Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code and report if it does not. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

Regulation 35 (X) of the Listing Regulations requires the Management Company to place before the Board of Directors for their consideration and approval, related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. Further all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Management Company's compliance for and on behalf of the fund, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended June 30, 2015.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of **First Capital Mutual Fund** (herein after referred to as the 'Fund'), which comprise the statement of assets and liabilities as at June 30, 2015, and the related statement of comprehensive income, distribution statement, statement of movement in unit holders' fund and cash flow statement for the year ended and a summary of significant accounting policies and other explanatory notes.

Management Company's responsibility for the financial statements

The Management Company of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with approved accounting standards as applicable in Pakistan, and for such internal control as the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at June 30, 2015 and of its financial performance, cash flows and transactions for the year ended June 30, 2015 in accordance with the approved accounting standards as applicable in Pakistan.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In our opinion, the financial statements have been prepared in all material respects in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2015

1. Legal status and nature of business

First Capital Mutual Fund (the Fund) was constituted by virtue of a scheme of arrangement for conversion of First Capital Mutual Fund Limited into an Open End Scheme under a Trust Deed executed between First Capital Investments Limited (FCIL) as Management Company and Central Depository Company of Pakistan Limited (CDC) as Trustee. The Trust Deed was executed on August 06, 2013 after being approved by the Securities and Exchange Commission of Pakistan (SECP) on July 30, 2013 in accordance with the provisions of Non - Banking Finance Companies and Notified Entities Regulations, 2008 (NBFC Regulations).

The Management Company has been licensed by the SECP to act as an asset management company under the Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules) through a certificate of registration issued by the SECP. The registered office of the Management Company is situated at 2nd and 3rd floor, Pace Mall, Fortress Stadium, Lahore, Pakistan.

The Fund has been formed to augment the wealth of investors through investments geared towards securing maximum returns whilst simultaneously offsetting resultant risks through efficient diversification across sectors with low correlation amongst them. The Fund shall invest its net assets in high quality dividend yielding stocks. While the remaining assets shall be invested in cash and/or near cash instruments.

As per the Trust Deed, the Fund became operative from July 30, 2013, i.e. the effective date of conversion of First Capital Mutual Fund Limited to an open end scheme. As per the scheme of arrangement for conversion of investment company into an open end fund, in a swap ratio of 1:1, shareholder whose name was entered in the register of members of First Capital Mutual Fund Limited (FCMFL) on the effective date was issued one unit of open end fund for every fully paid-up share of the par value of Rs. 10 of First Capital Mutual Fund Limited in the electronic form, physical certificates of FCMFL stand automatically cancelled. Hence the initial issuance of 30,900,000 units of First Capital Mutual Fund was made at the net asset value received against each unit (i.e. Rs 10.11 per unit). Redemption of initial units before the expiry of twelve (12) months from the effective date of conversion shall be subject to a back end load of 20% as per the offering document.

Title of the assets of the Fund is held in the name of Central Depository Company of Pakistan Limited (CDC) as trustee of the Fund and the Fund is listed on Lahore Stock Exchange.

The units are transferable and can be redeemed by submitting them to the Fund. The Pakistan Credit Rating Agency Limited (PACRA) has assigned a management quality rating of 'AM4+' to the Management Company. Furthermore, PACRA has assigned a performance ranking of '2 Star' to the Fund on August 13, 2015 based on performance for the period ended June 30, 2015.

2 Basis of measurement

2.1 Statement of compliance

These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Ordinance, 1984, the requirements of the Trust Deed, the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulations 2008 (the NBFC Regulations) and the directives issued by the Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Trust Deed, the NBFC Rules, the NBFC Regulations or directives issued by the SECP differ with the requirements of IFRSs, the requirements of the Trust Deed, the NBFC Rules, the NBFC Regulations or the directives issued by the SECP prevail.

2.2 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Fund's financial statements covering annual periods, beginning on or after the following dates:

2.2.1 Standards, amendments and interpretations to approved accounting standards that are effective in the current year

Certain standards, amendments and interpretations to approved accounting standards are effective in the current year but are considered not to be relevant or to have any significant effect on the Fund's operations and are, therefore, not detailed in these financial statements.

2.2.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Fund

There are certain standards, amendments to the approved accounting standards and interpretations that are mandatory for the Fund's accounting periods beginning on or after July 1, 2015 but are considered not to be relevant or to have any significant effect on the Fund's operations and are, therefore, not detailed in these financial statements.

2.3 Critical accounting estimates and judgments

The preparation of financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Fund's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectation of future events that are believed to be reasonable under the circumstances.

The areas involving a degree of judgment or complexity, or areas where estimates and assumptions are significant to the financial statements relate to classification and valuation of investments (notes 3.1 and 5)

2.4 Accounting convention

These financial statements have been prepared under the historical cost convention except that certain financial assets have been carried at fair value in accordance with the requirements of International Accounting Standard (IAS) 39: 'Financial Instruments Recognition and Measurement.'

2.5 Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistani Rupees which is the Fund's functional and presentation currency.

3. Summary of significant accounting policies

The accounting policies adopted in the preparation of these financial statements are consistent with those applied in the previous period.

The principal accounting policies applied in the preparation of these financial statements are set out below:

3.1 Financial assets

3.1.1 Classification

The Fund classifies its financial assets into the following categories: 'loans and receivables', 'at fair value through profit or loss', 'held to maturity' and 'available for sale'. The classification depends on the purpose

for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this classification on a regular basis.

a) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

b) At fair value through profit or loss

Financial assets that are acquired principally for the purpose of generating profit from short-term fluctuations in prices are classified as held for trading in the 'Financial assets at fair value through profit or loss' category.

c) Held to maturity

These are securities acquired by the fund with the intention and ability to hold them up to maturity.

d) Available for sale

Available for sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as (a) loans and receivables, (b) financial assets at fair value through profit or loss or (c) held to maturity investments.

3.1.2 Regular way contracts

Regular purchases and sales of financial assets are recognized on the trade date – the date on which the Fund commits to purchase or sell the asset.

3.1.3 Initial recognition and measurement

Financial assets are initially recognized at fair value plus transaction costs except for financial assets carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the income statement.

3.1.4 Subsequent measurement

Subsequent to initial recognition, financial assets designated by the management as at fair value through profit or loss and available for sale are valued as follows:

a) Financial assets 'at fair value through profit or loss'

Net gains and losses arising from changes in the fair value of financial assets carried at fair value through profit or loss are taken to the 'income statement'.

Basis of valuation of equity securities

The investment of the Fund in equity securities is valued on the basis of closing quoted market prices available at the stock exchange. A security listed on the stock exchange for which no sale is reported on the reporting date is valued at its last sale price on the next preceding date on which such exchange is open and if no sale is reported for such date the security is valued at an amount neither higher than the closing ask price nor lower than the closing bid price.

Basis of valuation of government securities

The investment of the Fund in government securities is valued on the basis of rates announced by the Financial Markets Association of Pakistan.

b) Available for sale

Net gains and losses arising from changes in fair value of available for sale financial assets are taken to the 'statement of comprehensive income' until these are derecognized or impaired. At this time, the cumulative gain or loss previously recognized directly in the 'statement of comprehensive income' is transferred to the 'income statement'.

c) Loans and receivables

Subsequent to initial recognition financial assets classified as 'Loans and receivables' are carried at amortized cost using the effective interest method.

Gain or loss is also recognized in the 'income statement' when financial assets carried at amortized cost are derecognized or impaired, and through the amortization process.

3.1.5 Impairment

The Fund assesses at each reporting date whether there is an objective evidence that the financial asset or a group of financial assets is impaired. The carrying value of the Fund's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount.

a) Loans and receivables

For financial assets classified as loans and receivables, a provision for impairment is established when there is an objective evidence that the Fund will not be able to collect all amounts due according to the original terms. The amount of provision is measured as the difference between asset's carrying value and present value of estimated future cash outflows, discounted at the original effective interest rate.

b) Equity securities classified as available for sale

In the case of available for sale equity securities, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the securities are impaired. If evidence of impairment exists, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the income statement is reclassified from unitholder's fund to the income statement.

Impairment losses recognised in the income statement on equity instruments are not reversed through the income statement.

c) Debt Securities

Provision against non performing debt securities is made in accordance with the provisioning criteria for non-performing debt securities specified by the SECP. As allowed by the SECP, the management may also make provision against debt securities over and above the minimum provision requirement prescribed in the aforesaid circulars, in accordance with the provisioning policy duly approved by the Board of Directors of the Management Company.

3.1.6 Derecognition

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Any gain or loss on derecognition is taken to the income statement.

3.1.7 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Assets and Liabilities when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

3.2 Cash and cash equivalents

Cash and cash equivalents include demand deposits with banks and other short term highly liquid investments with maturities of three months or less.

3.3 Derivatives

Derivative instruments are initially recognized at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognized in the income statement.

3.4 Financial liabilities

All financial liabilities are recognized at the time when the Fund becomes a party to the contractual provisions of the instrument. They are initially recognized at fair value and subsequently stated at amortized cost.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired.

Any gain or loss on derecognition is taken to the income statement.

3.5 Provisions

Provisions are recognized when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

3.6 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realized or unrealized, is distributed amongst the unit holders.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

Deferred

The Fund provides for deferred taxation using the balance sheet liability method on all major temporary differences between the amounts used for financial reporting purposes and amounts used for taxation

purposes. In addition, the Fund also records deferred tax asset on unutilized tax losses to the extent that it is no longer probable that the related tax benefit will be realized.

However, the Fund has not recognized any amount in respect of deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing at least ninety percent of its accounting income for the year as reduced by capital gains, whether realized or unrealized, to its unit holders every year.

3.7 Issuance of units

Units issued are recorded at the offer price, applicable to units for which the Management Company receives issuance applications during business hours of that day. The offer price represents the Net Asset Value per unit as of the close of business day, plus the front end load, any duties, taxes, charges on issuance and any provision for transaction costs, if applicable. The front end load is payable to the Management Company.

3.8 Redemption of units

Units redeemed are recorded at the redemption price, applicable to units for which the management company receive redemption applications during business hours of that day. The redemption price represents the Net Asset Value per unit as of the close of the business day less back-end load, any duties, taxes, charges on redemption and any provision for transaction costs, if applicable.

3.9 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in the units redeemed

To prevent the dilution of per unit income and distribution of income already paid out on redemption, an equalisation account called the 'element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed' (the element) is created.

Upon sale and redemption of units, the amount representing net income/ (loss) and capital gains/(losses) accounted for in the net asset value and included in the issue or redemption price is taken to the income statement.

The element is computed to the extent that it is represented by the increase / decrease in net income / loss and capital gains / losses earned / incurred during the year and is transferred to the income statement.

3.10 Net asset value per unit

The Net Asset Value per unit as disclosed on the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units in issue at the year end.

3.11 Distribution to the unit holders

Distributions in form of cash dividend and bonus units are recognized in the year in which they are declared and approved.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the year end in which distributions are declared and approved.

3.12 Expenses

All expenses including NAV based expenses (namely management fee, trustee fee and annual fee payable to the SECP) are recognized in the Income Statement on an accrual basis.

3.13 Revenue recognition

- Capital gains / (losses) arising on sale of investments are included in the income statement on the date at which the transaction takes place.
- Dividend income is recognized when the right to receive the dividend is established.
- Unrealized capital gains / (losses) arising on re-measurement of investments classified as financial assets 'at fair value through profit or loss' are included in the income statement in the year in which they arise.
- Income on government securities and bank deposits is recognized on an accrual basis.
- Element of income / loss and capital gains / losses in the prices of units issued less those in the units redeemed is recognised when the units are issued and redeemed at the transaction date.

8.1 Under the provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Management Company of the Fund is entitled to a remuneration during the first five years of the Fund, of an amount not exceeding three percent of the average annual net assets of the Fund and thereafter, of an amount equal to two percent of such assets of the Fund. The remuneration of the management company has been charged at the rate of three percent per annum for the year ended June 30, 2015 (July 30, 2013 to June 30, 2014: 3 % per annum).

8.2 The Provincial Government of Punjab levied Punjab Sales Tax at the rate of 16% on the remuneration of the management company through the Punjab Sales Tax on Services Act, 2012 effective from July 1, 2012.

8.3 The Finance Act, 2013 has enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) with effect from June 13, 2013. The Management Company is of the view that since the remuneration is already subject to the provincial sales tax, further levy of the FED may result in double taxation, which does not appear to be the spirit of the law.

On September 4, 2013, a Constitutional Petition has been filed in the Honourable Sindh High Court (SHC) jointly by various asset management companies, together with their representative Collective Investment Schemes through their trustees, challenging the levy of FED. In this respect, the Honourable SHC has issued a stay order against recovery proceedings. The hearing of the petition is pending. Pending the decision of SHC, the Fund is not making any payment of FED (including the resultant impact of its Punjab Sales Tax) effective June 13, 2013 aggregating to Rs. 2.969 million (2014: Rs. 1.288 million). Had the same not been made the Net Asset Value per unit of the Fund as at June 30, 2015 would have been higher by Rs. 0.1345 per unit.

12 Provision for Workers' Welfare Fund

The Finance Act, 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all Collective Investment Schemes (CISs) / Mutual Funds whose income exceeds Rs. 0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain CISs through their trustees in the Honourable Sindh High Court (SHC) challenging the applicability of WWF on CISs and pension funds, which is pending adjudication.

During the year ended June 30, 2011, a clarification was issued by the Ministry of Labour and Manpower (the Ministry) which stated that mutual funds are not liable to contribute to WWF on the basis of their income. However on December 14, 2010 the Ministry filed its response against the Constitutional Petition requesting the Court to dismiss the same. Show cause notices were then issued by the Federal Board of Revenue (FBR) to several CISs / pension schemes for the collection of WWF in respect of which certain CISs / pension schemes have been granted stay by the Honourable SHC on the basis of pending Constitutional Petition as referred above.

During the year ended June 30, 2012, the Honourable Lahore High Court (LHC) in a Constitutional Petition relating to the amendments brought in the WWF Ordinance, 1971 through the Finance Act, 2006 and the Finance Act, 2008, has declared the said amendments as unlawful and unconstitutional. In March 2013, a larger bench of the Honourable Sindh High Court (SHC) passed an order declaring that the amendments introduced in the WWF Ordinance, 1971 through the Finance Act, 2006 and Finance Act, 2008 do not suffer from any constitutional or legal infirmity. However, the Honourable High Court of Sindh has not addressed the other amendments made in the WWF Ordinance, 1971 about applicability of WWF to the CISs which is still pending before the Court.

In a recent judgement of May, 2014 the Peshawar High Court (PHC) has also held these amendments to be ultra vires as they lacked the essential mandate to be introduced and passed through the Money Bill under constitution. For the CISs and Pension Funds, the issue of chargeability or otherwise of WWF levy to CISs / Pension Funds is currently pending before the Honourable SHC.

Without prejudice to the above, the Management Company, as a matter of abundant caution, has decided to retain the provision for WWF amounting to Rs. 8.205 million (2014: Rs. 7.385 million). Had the same not been made the Net Asset Value per unit of the Fund as at June 30, 2015 would have been higher by Rs. 0.3717 per unit.

18 Taxation

The income of the Fund is exempt from income tax under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of its accounting income for the year, as reduced by capital gains, whether realized or unrealized, is distributed amongst the unit holders. The Fund has not recorded provision for taxation as the Management Company has distributed more than 90 percent of the Fund's accounting income for the current year as reduced by capital gains (whether realized or unrealized) to its unit holders.

Finance Act, 2015 introduced income tax at the rate of 10% on undistributed reserves where such reserves of the Company are in excess of its paid up capital and the Company derives profit for a tax year but does not distribute requisite cash dividend within six months of the end of the said tax year. Liability in respect of such income tax, if any, is recognised when the prescribed time period for distribution of dividend expires.

19 Earnings per unit

Earnings per unit (EPU) have not been disclosed as in the opinion of the management, determination of weighted average number of outstanding units for calculating EPU is not practicable.

20. Transactions with connected persons

Connected persons include First Capital Investments Limited (FCIL) being the Management Company, Central Depository Company of Pakistan Limited (CDC) being the Trustee of the Fund, other collective schemes managed by the Management Company, any person or company beneficially owning ten percent or more of the capital of the Management Company or net assets of the Fund and directors and key management personnel of the Management Company.

The transactions with connected persons essentially comprise of sale and repurchase of units, fee on account of managing the affairs of the Fund, other charges and distribution payments. Such transactions are in the normal course of business, at contracted rates and terms determined in accordance with the market rates.

Remuneration to the Management Company and the Trustee of the Fund is determined in accordance with the provisions of the NBFC regulations and the Trust Deed.

25 Financial risk management objective and policies

The Fund's objective in managing risk is the creation and protection of unit holder's value. Risk is inherent in the activities of the Fund, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, Fund's constitutive documents and the regulations and directives of the Securities and Exchange Commission of Pakistan. These limits reflect the business strategy and market environment of the Fund as well as the level of risk that the Fund is willing to accept.

The Board of Directors of the Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Board is also responsible for developing and monitoring the Fund's risk management policies.

The Fund's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk.

25.1 Credit risk

Credit risk represents the risk of a loss that would be recognized at the reporting date if counterparties failed completely to perform as contracted. Credit risk arises from deposits with banks, credit exposure arising as a result of dividends receivable on equity securities, receivable against sale of investments, advances, deposits and other receivables and accrued income on bank deposits. For banks and financial institutions, only reputed parties are accepted. Credit risk on dividend receivable is minimal due to statutory protection.

The Fund's policy is to enter into financial contracts in accordance with the internal risk management policies and investment guidelines approved by the Investment Committee. In addition, the risk is managed through assignment of credit limits and by following strict credit evaluation criteria laid down by the Management Company. The Fund does not expect to incur material credit losses on its financial assets.

	285,041,234	2,972,456	330,731,617	6,474,611

Difference in the balance as per statement of assets and liabilities and maximum exposure is due to the fact that investment in equity securities of Rs. 264,051,841 (2014: Rs. 314,148,024) and receivable against sale of investments of Rs. 7,874,333 (2014: Nil) are not subject to credit risk. Moreover, investment in treasury bills of Rs. 9,958,220 (2014: Rs. 9,935,909) and advance tax of Rs. 184,384 (2014: Rs. 173,073) is not subject to credit risk as counter party to the investment is the Government of Pakistan and Federal Board of Revenue, respectively.

None of the financial assets were considered to be past due or impaired as at June 30, 2015.

25.1.2 Concentration of credit risk:

Concentration of credit risk exists when the changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is broadly diversified and all other transactions are entered into with creditworthy counterparties thereby mitigating any significant concentrations of credit risk.

Details of Fund's concentration of credit risk of financial instruments by industrial distribution is as follows:

	30-Jun-15		30-Jun-14	
	Rupees	Percentage	Rupees	Percentage
Banks	1,547,638	52%	5,457,823	84%
Others	1,424,818	48%	1,016,788	16%
	2,972,456	100%	6,474,611	100%

25.2 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund is exposed to the daily settlement of equity securities and to daily cash redemptions, if any. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed of. The Fund's listed securities are considered readily realizable, as they are listed on the Stock Exchanges.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemption requests during the year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the period end date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows as on:

25.3 Market risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market variables such as profit rates, foreign exchange rates and equity prices.

The Management Company manages the market risk through diversification of the investment portfolio by exposures and by following the internal guidelines established by the investment committee and regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises of three types of risks: currency risk, interest rate risk and other price risk.

25.3.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund, at present, is not exposed to currency risk as all transactions are carried out in Pak Rupees.

25.3.2 Interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within acceptable limits.

a) Sensitivity analysis for variable rate instruments

Presently, the Fund holds balances with banks which expose the Fund to cashflow interest rate risk. In case of 100 basis points increase in market rates as at June 30, 2015, with all other variables held constant, the net income for the year and net assets would have been higher by Rs. 15,476 (2014: Rs. 54,578). In case of 100 basis points decrease in market rates as at June 30, 2015, with all other variables held constant, the net income for the year and net assets would have been lower by Rs. 15,476 (2014: Rs. 54,578).

b) Sensitivity analysis for fixed rate instruments

As at June 30, 2015, the Fund holds market treasury bills which are classified as financial assets at fair value through profit and loss exposing the Fund to fair value interest rate risk. In case of 100 basis points increase in rates announced by Financial Markets Association of Pakistan for market treasury bills as on June 30, 2015, with all other variables held constant, the net income for the year and net assets would have been lower by Rs. 5,970 (2014: Rs. 6,220). In case of 100 basis points decrease in rates announced by Financial Markets Association of Pakistan for market treasury bills as on June 30, 2015, with all other variables held constant, the net income for the year and net assets would have been higher by Rs. 5,980 (2014: Rs. 6,220).

25.3.2.1 The Fund's profit rate sensitivity related to financial assets and financial liabilities as at June 30, 2015 can be determined as follows:

25.3.3 Other price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Fund is exposed to equity price risk because of investments held by the Fund in listed equity securities classified on the Statement of Assets and Liabilities as 'at fair value through profit or loss'. To manage its price risk arising from investments in equity securities, the Fund diversifies its portfolio within eligible stocks. The Fund's constitutive document / NBFC Regulations, 2008 also limit individual equity securities to no more than 10% of net assets of the Fund, or issued capital of the investee company and sector exposure limit to 25% of net assets.

In case of 5% increase / decrease in the KSE 100 index on June 30, net income for the year ended June 30, 2015 would increase / decrease by Rs. 13,202,592 (from July 2013 to June 30, 2014: Rs. 15,707,401) and net assets of the Fund would increase / decrease by the same amount as a result of gains / losses on equity securities classified at fair value through profit or loss.

The analysis is based on the assumption that the equity index had increased/ decreased by 5% with all other variables held constant and all the Fund's equity instruments moved according to the historical correlation with the index. This represents management's best estimate of a reasonable possible shift in KSE 100 Index having regard to historical volatility of the index. The composition of the Fund's investment portfolio and the correlation, thereof, to the KSE 100 Index is expected to change over time. Accordingly, the sensitivity analysis prepared as of June 30, 2015 is not necessarily indicative of the effect on the Fund's net assets of future movements in the level of the KSE 100 index.

26 Unit holder's fund risk management

The Fund's capital is represented by the net assets attributable to unit holders / redeemable units. The unit holders of the fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holder's fund.

The Fund has no restrictions or specific funding requirements on the subscription and redemption of units.

The Fund's objectives when managing unit holder's fund are to safeguard its ability to continue as a going concern so that it can continue to provide returns to unit holders and to maintain a strong base of assets to meet unexpected losses or opportunities.

In accordance with the risk management policies, the Fund endeavours to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemption requests. Such liquidity being augmented by disposal of investments where necessary.

As required under the NBFC Regulations, every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs 100 million at all times during the life of scheme. The Fund has maintained and complied with the requirements of minimum fund size during the year.

27 Fair value of financial assets and liabilities

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the balance sheet date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book values as the items are either short term in nature or periodically repriced.

International Financial Reporting Standard (IFRS) 7, "Financial Instruments: Disclosures" requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (that is, derived from prices) (level 2);
- Inputs for the assets or liability that are not based on observable market data (unobservable inputs) (level 3).

Investments of the Fund carried at fair value are categorized as follows:

June 30, 2015				
	Level 1	Level 2	Level 3	Total
Rupees				
At fair value through profit or loss				
- Listed equity securities	264,051,841	-	-	264,051,841
